Bian Luotao

Film editing · Colour and sound post · Video evaluation

Jiaxing, Zhejiang, China (UTC+8) · luotaobian@gmail.com

Portfolio | **Analysis reel** | **Full film**

Filmmaker with hands-on writing, directing and post-production experience on G A P (2022). Completed the film's editing, colour grading and sound post in DaVinci Resolve. Seeking part-time remote work evaluating video, with availability in the evenings and at weekends (UTC+8).

SELECTED WORK

G A P · Short fiction film, 9:14 · 2022

Writer and director; editor, colour grading and sound post.

• Developed the screenplay and directed the film with a credited production crew.

• Used DaVinci Resolve Edit, Color and Fairlight for the final film's post-production.

• A representative edit at 05:36:16 carries a character's rise into a reverse angle, making the relationship between the two figures more visible.

G A P · Video analysis case study

• Timecoded visual cases address editing, composition, selective information and action legibility.

• Technical checks distinguish visible subtitle errors and audio-stream structure from questions that require listening or playback verification.

Developed with AI assistance for frame sampling, technical measurements, analysis drafts, portfolio editing and layout. I wrote and directed the original film with a credited crew, and completed its post-production.

CURRENT WORK

Textile export trade · Jiaxing, China

Current daytime work; available for part-time video-evaluation work outside those hours.

EDUCATION

University of Essex, United Kingdom

Film-related coursework; no degree awarded.

High school, China

Completed.

SKILLS AND LANGUAGES

DaVinci Resolve: Edit, Color and Fairlight; Fusion at a basic level.

Video review: timecoded observations, editing and composition, action legibility, visible text QA and timecoded technical findings.

Chinese: native. English: previous IELTS overall score of 6.0.
